

Sustainability Strategy & Goals

Jabil's comprehensive sustainability strategy aligns with the United Nations' Sustainable Development Goals (SDGs). Our own sustainability goals are grouped under three foundational pillars: **People & Communities**, **Operations & Resources**, and **Innovative Solutions**.

For each goal, we set measurable key performance indicators (KPIs) and monitor their progress using data-driven dashboards. Unless otherwise stated, we strive to meet or exceed these goals by the end of Jabil's fiscal year 2026.

Jabil's Vision

To be the most technologically advanced and trusted manufacturing solutions provider.

How Jabil Defines Sustainability

At Jabil, sustainability is the integration of environmental health, social responsibility, governance and economic growth. Through Jabil's sustainability strategy, we aim to create thriving, healthy, and resilient business operations for our employees and the communities in which we live and work – **for this generation and for generations to come.**

We understand our responsibility to be good stewards of natural resources and positively contribute to global environmental and social challenges. We listened to our stakeholders and developed our strategy and goals in alignment with the social and environmental challenges they care about most, and the areas we believe we can make the biggest impact.
