## BRAND BENEFITS

- Premiumization
- Product Differentiation
- Carbon Footprint Optimization
- Freight Cost Reduction Opportunities
- Superior Ecommerce Performance
- High Density Packaging

Competition for brand awareness. Ways to increase product innovation while maximizing package accessibility, functionality, resilience, and return on investment. You strive to stay ahead of consumer trends and stand out against increasingly agile competition.

The Single Serve Cup from Jabil Packaging Solutions will entice consumers as they search store shelves for something different. They will quickly recognize the inherent benefits of more convenient product access and portion-controlled food packaging that makes meal preparation easier and reduces food waste.

This innovative solution allows you to quickly bring premium new products to market that enhance your brand image and improve your bottom line.

# Single Serve Cup

When Every Serving Counts

## Heat Sealed Lidding

PP construction is compatible with most heat-sealed lidding systems. Snap lid compatible

## Co-Injected, Multilayer Barrier Structure

Encloses a uniformly distributed EVOH barrier from outside environmental elements, such as: chemicals, cleaning agents, sterilization processes and water contamination

## Co-Injection Process Provides Uniform Wall Thickness Throughout

## ABOUT JABIL PACKAGING SOLUTIONS

Jabil Packaging Solutions, headquartered in St. Petersburg, Florida, enables food and beverage, home, personal and professional brands to create differentiated products in areas including intelligent, active, rigid and sustainable packaging, as well as consumer devices. Purposeful innovation, advanced conversion capabilities and best-in-class manufacturing practices are just some of the drivers that enable us to co-develop game-changing rigid packaging for our customers.
